Work Experience

Senior Flutter Developer

February 2022 – Present

Ostrum tech Limited, UK · Remote

- Architectural Optimization: Refactored and optimized complex legacy codebases, achieving a 60% reduction in source volume while significantly enhancing system scalability and runtime performance.
- CI/CD Architecture: Engineered automated CI/CD pipelines that reduced manual deployment time from 4 hours to 30 minutes per release cycle.
- State & Data Management: Implemented BLoC state management pattern across all applications, achieving clean separation of UI and business logic layers. Implemented HydratedBloc and Drift, reducing redundant network requests by 30% through intelligent local caching and persistence.
- Strategic Resource Management: Decreased monthly cloud infrastructure overhead by 25% through rigorous code optimization and the elimination of redundant API calls.
- Technical Mentorship: Led a team of 5+ developers, conducting bi-weekly technical workshops that reduced average PR revision cycles.

Associate SAP Consultant

September 2019 – February 2022

Infosys Limited, India · Full-time · Mysore & Hyderabad, IN

- SAP HANA Implementation: Spearheaded the implementation of SAP HANA for a major retail client.
- SAP BW Optimization: Led the optimization of SAP BW data models, reducing query execution time and improving overall system performance.
- SAP BI Reporting: Developed and maintained SAP BI reports and dashboards, enhancing data visualisation and decision-making for business stakeholders.
- Migration from On-Prem to AWS Cloud: Played a key role in the migration of SAP systems from on-premises to cloud infrastructure, ensuring minimal downtime and data integrity.

TECHNICAL SKILLS

APPLICATION DEVELOPMENT

- Flutter and Dart — Expert
- State Management — Advanced
- Play Store & App Store Deployment and maintenance — Expert

CLOUD & BACKEND DEVELOPMENT

- AWS Lambda — Intermediate
- AWS AppSync — Intermediate
- AWS Cognito — Advanced
- AWS CloudWatch — Intermediate
- AWS S3 — Intermediate
- AWS SES — Intermediate
- Firebase Cloud Messaging — Advanced
- Firebase Authentication — Advanced
- Firebase Firestore — Advanced
- Firebase Storage — Advanced
- MySQL — Intermediate

AUTOMATION & CI/CD

- GitHub Actions — Advanced
- AWS CodePipeline — Intermediate

CERTIFICATIONS

LANGUAGES

- English — Professional working proficiency
- Kannada — Native or bilingual proficiency
- Hindi — Limited working proficiency

TOOLS AND PLATFORMS

PROFESSIONAL INTERESTS

Notable Projects

Purple Door

Flutter · AWS · MySQL · BLoC · Firebase FCM · GitHub Actions

Live Mobile application on Play Store and App Store for airport assistance services, providing real-time support for passengers with special needs. Features include booking assistance, live tracking, and push notifications. Integrated AWS services for backend processing and MySQL for data management.

Ostrum

Flutter · AWS · MySQL · BLoC · Method Channel · Firebase FCM · GitHub Actions

Live Mobile application on Play Store and App Store; is a special assistance platform enabled at airports. It is intended to be used by special assistance agents, pilots, cabin crew and boarding agents. Access to this app is limited and is controlled by the relevant airports or special assistance providers.

Flarcade

Flutter

App that provides a collection of mini-games built using Flutter, showcasing the framework's capabilities in creating engaging and interactive gaming experiences. The app features a variety of games, including puzzles, arcade-style challenges, and casual games, all designed to demonstrate the versatility and performance of Flutter in game development.

Education

Bachelor of Engineering – Computer Science and Engineering

2015 – 2019

Nitte Meenakshi Institute of Technology, Bangalore, IN · GPA: 8.6 / 10

Achievements
